CURVILINEAR SHAPE

A Curvilinear Shape is a shape bounded by curving lines or edges.

Can You Draw four Curvilinear Shapes Found In Nature?

MOTHER NATURE'S CURVILINEAR CREATURE CREATOR ©

Curvilinear means to be made up of a curved line or lines. In the Joan Miró mural at the Cincinnati Art Museum the artist has used hundreds of curvilinear shapes to create his painting. Place your ‘Mother Nature’s Curvilinear Creature Collection’ sheet underneath the space below to trace some of Miro’s shapes and create your own Curvilinear Creature.
